SAFETY: Each week we will try to have a safety briefing to help meet the requirements for CAP activities. One week a month, we will have an in depth safety class. This should ensure we are always safety compliant.

ADVANCEMENT: Achievements, promotions and advancement seem to be easy for some individuals, and more challenging for others. Each cadet and senior member should apply themselves to progress in the program and take on additional responsibilities as they advance. Congratulations to all who have moved up - keep working on the next level.
